DETAILED ACTION

Allowable Subject Matter

1. Claims 1-12 are allowed.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach or suggest individually or in combination the following:

a power table including plurality of Power Control registers each rewritably storing power control information, a condition determiner for rewritably storing a plurality of operating conditions and determining which one of the plurality of operating conditions is satisfied by a current operation of the processor so as to supply an index signal to select one of the plurality of power control registers based on the determination.

For these reasons claim 1 is deemed to be allowable over the prior art of record, and claims 2-12 are allowable by dependency.

3. Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee, and to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for allowance."
